

Description of the Directory

Reference in this directory to any specific service or facility does not constitute an endorsement or recommendation by the New Jersey Department of Health and Senior Services. The Department is not responsible for the accuracy of the information listed since it was provided by each facility. This information is subject to change with all interested parties advised to contact their facility of choice to verify Directory listing information prior to scheduling appointments.

About the Survey

The information in this directory was obtained through a direct mailing sent by the New Jersey EHDI Program to all currently licensed audiologists and hearing aid dispensers in the State of New Jersey and to otolaryngologists with admitting privileges to New Jersey hospitals.

About the Directory

The information in this Directory was provided to the New Jersey EHDI Program by the individual facilities. The Directory is arranged by specialty (audiology and hearing aid services, then otolaryngology services), then by county and then alphabetically by facility name. Each entry includes: facility name, voice/TTY/videophone phone numbers, fax number, website, e-mail address (if available), HMOs accepted by the facility, available services, availability of language translation/interpreting services, and facility accessibility. One or more of these items may be excluded from entries due to missing or incomplete information. Due to constant changes in medical insurance and types of services offered, please verify the provider meets your needs prior to scheduling appointments.

How to Use the Directory

To find a facility near you, use the Table of Contents and Indexes to identify a facility in your city or one that is closest to you. Before selecting a facility, compare the services and features that are important to you and your child's needs. If there is a particular facility you have in mind, but do not know what county it is located in, see the first index immediately following the listings, where all participating facilities are listed together in alphabetical order. If you are looking for a particular Facility Level; hearing healthcare services; insurance accepted or language spoken, see the second index that groups facilities by these categories. If you are looking for a facility based on insurance coverage, it is always recommended that when you call to make the appointment, you double check that the facility currently accepts your insurance. **Also, you should check with your health insurance company, by calling the number on the back of your insurance card, to make sure that your child is covered for the services/procedures that will be performed as well as verify whether or not a referral is needed on the day of the appointment to ensure that testing can be completed.**
