monitoring health status; policy development; diagnosis and investigation of health problems and hazards; preventive personal health services and access to health care; enforcement of public health laws; health-related research; and evaluation of population-based health services.

The Department is developing a rulemaking that would revise and reorganize existing N.J.A.C. 8:52, and anticipates filing this rulemaking with the Office of Administrative Law for processing in the ordinary course. However, this rulemaking will not be adopted prior to the expiration of existing N.J.A.C. 8:52. The Commissioner, in consultation with the Public Health Council, has reviewed N.J.A.C. 8:52 and has determined that, subject to the discussion below, and pending the finalization of the anticipated rulemaking described above, the existing chapter remains necessary, proper, reasonable, efficient, understandable, and responsive to the purposes for which it was originally promulgated, as amended and supplemented over time, and should be readopted.

Therefore, pursuant to N.J.S.A. 52:14B-5.1.c(1) and N.J.A.C. 1:30-6.4(h), N.J.A.C. 8:52 is readopted and shall continue in effect for seven years.

The official version of any departmental rulemaking activity (notices of proposal or adoption) are published in the New Jersey Register and/or the New Jersey Administrative Code. Should there be any discrepancies between this document and the official version of the proposal or adoption, the official version will govern.²
